7. Commission Based Transactions and Fixed Price Transactions

ZKB shall arrange Commission Based Transactions or enter into Fixed Price Transactions with you as defined as follows:

i. Commission Based Transactions

Commission Based Transactions are transactions which result from the execution of your orders for the purchase or sale of Financial Instruments against payment of a charge ("courtage" or "commission").

Such orders may be executed by ZKB itself as agent or by third parties commissioned by ZKB, for your account, with other market participants. ZKB may also execute such orders against its own account at current market prices.

ii. Fixed Price Transactions

Fixed Price Transactions involve ZKB and you concluding an agreement to purchase a Financial Instrument at a fixed or determinable price, or concluding a derivative contract at agreed terms. ZKB as a principal either acquires Financial Instruments from you (ZKB acting as a buyer) or delivers Financial Instruments to you as a seller. The rights and obligations of ZKB and of you are in this respect based on the contractual provisions. Charges may apply to Fixed Price Transactions.

[Additional information on the distinction between Commission Based Transactions and Fixed Price Transactions is available at \[zkb.ch/trading\]\(http://zkb.ch/trading\).](#)

ZKB may delay or refuse the execution of an order for the purpose of obtaining approval for disclosure (if such approval is necessary), to clarify the background of an
